### Timings

### Speakers

"AI For Energy Management"

Mike Lloyd  
Founder  
LearnTech.io

"How to supercharge renewables and energize the world"

"Why Rivals are working together to transform shipping"

"A World without Waste"

### Testimonials

“A very well managed networking event with some great companies to work with. A very worthwhile day.”

CLS Energy (Consultancy) Ltd

“A really well organised event, with a series of focused meetings with well prepared suppliers. So much better than an exhibition where you attend and hope you meet the right people”

AESG Limited

“Really loved and got a lot out of the Summit, sharing ideas and experiences with my peers during breaks and loved the prearrangement of meetings, which gave a solid structure to the event.”
